Professional Line

COMET CREME CLEANSER
An EPA Registered Disinfectant

Fact Sheet

Description

Professional Line Comet Creme Cleanser is a liquid cleanser which contains a mild abrasive material and chlorine. The product is tinted blue-green and lightly perfumed. Comet Creme Cleanser is non-acidic and contains no added phosphates.

Ingredients

Professional Line Comet Creme Cleanser contains sodium hypochlorite and an aqueous suspension of cleaning and polishing agents, quality control agents, perfume and colorants.

Packaging

The product is packed in 32 ounce bottles, 9 per case. Each bottle has a flip seal closure feature making the bottle easy to open, easy to use, and easy to reseal and store.

Performance

Professional Line Comet Creme Cleanser is an EPA registered disinfectant. The product is formulated to cling to vertical surfaces and to remove grease, food stains, and other tough foodservice soils. The abrasive in Comet Creme Cleanser is milder (less abrasive) than most powdered cleansers and therefore can be used on fiberglass and stainless steel surfaces.

Being an effective disinfecting cleanser, Comet Creme Cleanser is widely used in the cleaning of restrooms. The product is safe for use on porcelain, fiberglass and stainless steel surfaces. Comet Creme Cleanser can also remove mold and mildew.

Other Attributes

Professional Line Comet Creme Cleanser is kosher in accordance with the requirements of the Union of Orthodox Jewish Congregations of America and carries the official  symbol designation.

Comet Creme Cleanser is formulated to be phosphate free.

Also, Professional Line Comet Creme Cleanser is approved by the USDA for Category A-6 use in USDA inspected plants.

Characteristics

pH of 100% Solution	11.1
