DX-50

Biological Surface Cleaner

Description:

DX-50 is an EcoLogo certified biological surface cleaner. It is a concentrated formula containing selected strains of natural enzyme producing bacteria that work to eliminate stains and associated odors caused by urine, feces, vomit, and other organic matter. DX-50 is recommended for use in hospitals, hotels, restaurants, schools, kennels, prisons, industries, or anywhere organic soils originate. This product may be used on hard surfaces, carpet and upholstery, concrete and stone, and urinal drains and traps, as long as the surface remains damp for a sufficient amount of time to allow the enzyme producing bacteria to work.

ECOLOGO ULE-2792 Certified Biological Surface Cleaner

Benefits:

- Contains over 80 billion enzyme producing bacteria per gallon
- No harsh chemicals
- Readily biodegradable
- Non-toxic

Specifications:

| | |
|----------------------|--|
| Appearance: | Cloudy |
| Color: | No color |
| Odor: | Cherry/Almond Bouquet |
| Aerobic Bacteria: | 40 million/ml (minimum) |
| Anaerobic Bacteria: | 40 million/ml (minimum) |
| Use Dilution: | 8 oz. /gal. water (1:16) for cleaning. 1:1 with water for odor/stain elimination. 1 pint to 1 quart for urinal drains and traps. |
| VOCs: | 0.0 |
| Storage Stability: | Two years in unopened container @ 70°F. |
| Protective Clothing: | See Safety Data Sheet |
| Product Conformance: | Manufactured by an ISO 9001:2008 registered company. |

Comment:

In all cases, allow surface to remain damp a sufficient amount of time for the bacteria to eliminate the stain. Do not use with bleach, disinfectant, or chemical drain openers, as they may harm DX-50's performance.

Directions:

In all cases, allow surface to remain damp a sufficient amount of time for the bacteria to eliminate the odor and stain. For hard surfaces: Mix 8 oz. of DX-50 per gallon of water (1:16) and clean the surface. While the surface is still damp, spray with a 1:1 mixture of DX-50 and water in order to eliminate the stain. For carpet/upholstery: Remove as much soil as possible using a mixture of 8 oz. DX-50 per gallon of water (1:16). Then spray with

a 1:1 mixture of DX-50 and water and brush into fibers. Lay a damp towel over surface to keep moist for 24 hours. Blot with a clean, dry towel or pick up with a wet vac. For urinal drains/traps: Mix 1 pint of DX-50 and 1 pint of water and pour into urinal drain/trap. Do this at end of day or when the surface will not be used for a while. Do not flush. Keep the area damp with mixture until the odor or stain is eliminated. Several treatments may be required for severe cases

Product Disposal: DX-50 is non-hazardous and is actually beneficial in the treatment of sewage. DX-50 may be disposed of down the drain when necessary.

Packed:

| Packaging/Description | Item Code |
|--------------------------------|------------------|
| Quart (6 per case) | ND32830 |
| Gallon (4 per case) | 406035 |
| 55 Gallon Drum (Special Order) | DX5055GAL |
