GREASE RELEASE

Tile, Grout & Floor Cleaner for Institutional Kitchens

Description:

Grease Release is a concentrated formula containing selected strains of natural enzyme producing bacteria that was designed to clean and maintain grout and concrete in kitchens and bathrooms. It works to eliminate the build up of oil and grease on industrial kitchen floors and walkways leading into and out of kitchens and helps keep grout in bathrooms looking clean and bright. While cleaning and brightening tile and grout, one can also easily treat any floor drains by allowing the cleaning solution to run down the drains while the floor is being cleaned. It combines advanced cleaning technology with beneficial specialized microbes that penetrate porous surfaces and degrade organic build-up and their associated odors.

Grease Release is recommended for use in hospitals, hotels, restaurants, schools, prisons, or anywhere kitchen oils and greases may build up, or bathroom floors that are subjected to urine, grease and oils, or other organic matter that have discolored or stained the grout. This product is ideal for use on ceramic tiles, porcelain tiles, brick, concrete, or pavers and their grout. After cleaning with Grease Release, the microbes will continue to deep clean the sub-surfaces of grout, tile and other porous areas, thus minimizing slipping risks and helping to reduce odor.

The select strains of bacteria in Grease Release also make it an effective product for use through a foaming sprayer on loading docks, in trash shoots, and in dumpsters to help keep the substrates clean, while also treating the associated odors.

Benefits:

- Contains over 146 billion enzyme producing bacteria per gallon
- No harsh chemicals
- Biodegradable
- Non-toxic
- Certified salmonella free
- Helps prevent slippery floors
- May be used in kitchens and bathrooms
- Excellent product for loading docks & dumpsters
- Helps maintain floor drains

Specifications:

Bacteria Content:	38.65 million/ml (minimum)
Appearance:	Cloudy
Color:	Blue
Odor:	Orange Citrus
Use Dilution:	1:128 to 1:64
Storage Stability:	One year minimum in sealed container @ 70°F
Protective Clothing:	See Safety Data Sheet (SDS)
VOC's, % as is:	0.0

Product Conformance:

Manufactured by an ISO 9001:2008 registered company.

Comment: Can be used in a foam sprayer for quick and easy application of product.

Directions: In all cases, allow surface to remain damp a sufficient amount of time for the bacteria to work on the grease and oil build-up. Do not use with bleach, disinfectant, or acids, as they may harm the bacterial performance. Mix with lukewarm or cold tap water. Do not use hot water.
Product should be used at 1-2 oz. per gallon of water for daily maintenance of the floor. For heavy grease buildup, use at 3-4 oz. per gallon of water.

Product Disposal: Dispose of in accordance with local, state, and federal regulations. It is recommended that the high density polyethylene container and any corrugated packaging be recycled.

Packed:

Packaging/Description	Item Code
Gallon (4 per case)	921256
Quart (6 per case)	921257
