GRIME REAPER

Bio-Enzyme Restroom Cleaner

Description:

Grime Reaper is a certified restroom cleaner, concentrated with select strains of natural enzyme-producing bacteria that is designed to clean and maintain tile, grout and hard surfaces in restrooms, locker rooms, showers, etc. It combines advanced cleaning technology with beneficial specialized microbes that penetrate surfaces and degrade organic build-up and their associated odors. Grime Reaper works to eliminate the buildup of oil, grease, grime, soap residue and uric acid throughout restrooms to keep surfaces looking clean and bright. Allowing the cleaning solution to run down the drains while the floor is being cleaned, will also treat and maintain the drains against grime and odor.

Grime Reaper is recommended for use in hospitals, hotels, restaurants, schools, prisons, or anywhere restroom cleaning is carried out. It is effective on surfaces that are subjected to urine or other organic matter that have discolored or stained the grout. After cleaning with Grime Reaper, the microbes will continue to deep clean the sub-surfaces, thus minimizing slip risks, and working to reduce odor.

ECOLOGO UL 2792 Certified Biological Surface Cleaner

Benefits:

- Contains over 200 billion enzyme producing bacteria per gallon
- No harsh chemicals
- Biodegradable
- Non-toxic
- Helps prevent slippery floors
- For use in restrooms, showers, locker rooms
- Helps maintain drains

Specifications:

Bacteria Content:	2.55 x 10 ¹¹ cfu/gal.
Appearance:	Cloudy
Color:	Amber
Odor:	Lavender Citrus
Use Dilution:	As is to 1:32
Storage Stability:	One year minimum in sealed container @ 70°F
Protective Clothing:	See Safety Data Sheet (SDS)
VOC's, % as is:	0.0
Product Conformance:	Manufactured by an ISO 9001:2008 registered company.

Comment:

Can be used in a foam sprayer for quick and easy application of product.
cfu = colony forming units

Directions: Shake well prior to use. For cleaning hard surfaces such as urinals, toilets, or sinks, the product is used as is. Dilute up to 2 - 4 oz. per gallon for cleaning floors and grout. In all cases, allow surface to remain damp a sufficient amount of time for the bacteria to work on the oil and grime buildup. Do not use with bleach, disinfectant, or acids, as they may harm the bacterial performance. Mix with lukewarm or cold tap water. **DO NOT USE HOT WATER.**

Product Disposal: Dispose of in accordance with local, state, and federal regulations. It is recommended that the high density polyethylene container and any corrugated packaging be recycled.

Packed:

Packaging/Description	Item Code
Gallon (4 per case)	564688
Quarts (6 per case)	564689

Date: February 6, 2017
