Neutral Disinfectant Cleaner

Description:

KBQ-32 Neutral Disinfectant Cleaner is a very effective, non-phosphate neutral pH disinfectant, cleaner, deodorizer, virucide, mildewcide, and fungicide. It is designed for use in hospitals, nursing homes, hotels, schools, restaurants, and other institutions where housekeeping is of prime importance in controlling cross contamination. When used as directed, KBQ-32 Neutral Disinfectant Cleaner will disinfect hard non-porous inanimate environmental surfaces such as walls, floors, metal surfaces, stainless steel surfaces, glazed porcelain, glazed ceramic tile, plastic surfaces, bathrooms, shower stalls, bathtubs, and cabinets. KBQ-32 Neutral Disinfectant Cleaner deodorizes areas that are hard-to-keep fresh smelling, such as garbage storage areas, empty garbage bins and cans, toilet bowls, and other areas prone to odors caused by microorganisms. KBQ-32 Neutral Disinfectant Cleaner is formulated to a neutral pH and will not dull high-gloss floor finishes with repeated use. KBQ-32 Neutral Disinfectant Cleaner is scented and can be used as a system with AFBC-Acid Free Bathroom Cleaner.
