# MDRO/MRSA One Step Disinfectant

## ***Disinfectant and Neutral Cleaner***

### **Description:**

MDRO/MRSA One Step Disinfectant is a hospital-grade disinfectant and neutral cleaner when used at 1 ounce per gallon even in hard water up to 400ppm as CaCO<sub>3</sub> and in the presence of 5% blood serum. MDRO/MRSA One Step Disinfectant is effective against a number of multi-drug resistant organisms including Methicillin Resistant Staphylococcus aureus, Acinetobacter baumannii, Vancomycin Resistant Enterococcus faecalis (VRE), Tetracycline Resistant Escherichia coli, Tetracycline Resistant Pseudomonas aeruginosa, Vancomycin Intermediate Resistant Staphylococcus aureus (VISA), and Penicillin Resistant Streptococcus pneumonia. It is also a highly effective neutral cleaner that will not harm floor finishes and can be used on all types of flooring as well as any hard surface. EPA Reg. No. 10324-155-12228.

### **Benefits:**

- Kills Acinetobacter baumannii and Methicillin Resistant Staphylococcus Aureus, two bacteria of particular concern to hospitals.
- Effective bactericidal activity against Pseudomonas aeruginosa, Salmonella choleraesuis, Staphylococcus aureus, Bordetella bronchiseptica, Citrobacter freundii, Enterobacter agglomerans, Enterobacter aerogenes, Enterobacter cloacae, Enterococcus faecalis, Enterococcus faecalis Vancomycin Resistant, Escherichia coli, Escherichia Coli Tetracycline Resistant, Fusobacterium necrophorum, Klebsiella oxytoca, Klebsiella pneumoniae, Listeria monocytogenes, Micrococcus luteus, Pasteurella multocida, Proteus vulgaris, Pseudomonas aeruginosa Tetracycline Resistant, Pseudomonas cepacia, Salmonella choleraesuis, Salmonella choleraesuis serotype pollorum, Salmonella enteritidis, Salmonella typhi, Serratia marcescens, Shigella sonnei, Shigella flexneri, Vancomycin resistant Enterococcus faecalis (VRE), Methicillin resistant Staphylococcus aureus (MRSA), Vancomycin intermediate resistant Staphylococcus aureus (VISA), Staphylococcus epidermidis, Staphylococcus epidermidis Antibiotic resistant, Staphylococcus haemolyticus, Streptococcus agalactiae, Streptococcus pneumonia Penicillin Resistant, Streptococcus pyogenes, Vibrio cholera, and Yersinia enterocolitica.
- **VIRUCIDAL PERFORMANCE:** At 1 ounce per gallon (660 ppm quat active) use level, this product was evaluated in the presence of 400 ppm hard water with a 10-minute contact time and found to be effective against the following viruses on hard, non-porous environmental surfaces: Avian Influenza A (H3N2) virus (Avian Reassortant), Avian Influenza A (H5N1) virus, SARS-associated Coronavirus, Cytomegalovirus, Hepatitis B Virus, Hepatitis C Virus, Herpes Simplex Virus Type 1, Herpes Simplex Virus Type 2, Human Coronavirus, Human Immunodeficiency Virus type 1 (HIV 1), Influenza A virus, Respiratory syncytial virus
- Fungicidal against Trichophyton mentagrophytes (Athletes Foot Fungus) and Candida albicans.
- Controls mold and mildew such as Aspergillus niger
- Cleaner and Deodorizer

Product Information Sheet: MDRO / MRSA One Step Disinfectant

- Will not harm floor finish
- Excellent cleaning and soil dispersion
- Economical dilution of 1 ounce per gallon
- One product can be used on floors, walls, counters, restroom fixtures, tables, and other hard surfaces
- Neutral pH

**Specifications:**

Appearance: Clear liquid  
Color: Green  
Odor: No Fragrance Added  
Use Dilution: 1:128  
Storage Stability: Two years minimum in sealed containers  
Protective Clothing: See Safety Data Sheet (SDS)  
EPA Reg. No.: 10324-155-12228  
VOC's, % as is: 1%  
Product Conformance: Manufactured by an ISO 9001:2008 registered company.

**Comments:**

This product is a must-have for hard floor care programs in hospitals, nursing homes, elder care, day care, schools, food service areas, and other places where sanitation is critical.

**Directions:**

For heavily soiled areas, a preliminary cleaning is required. Add 1 ounce of this product to 1 gallon of water to disinfect hard, non-porous surfaces. Apply use solution using a brush, cloth, mop, sponge, auto scrubber, mechanical spray device, or by immersion so as to thoroughly wet surfaces. For sprayer applications, spray 6-8 inches from surface. Do not breathe spray. Rub with brush, cloth, or sponge. Change cloth, sponge or towels frequently to avoid redeposition of soil. Treated surfaces must remain wet for 10 minutes. Allow to air dry. Rinsing of floors is not necessary unless they are to be waxed or polished. Rinse all treated surfaces that come in contact with food such as countertops, appliances, tables and stovetops with potable water before reuse. Prepare a fresh solution at least daily or when use solution becomes visibly dirty.

**Product Disposal:**

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

**Container Disposal:**

Triple rinse the container promptly after emptying. Triple rinse as follows: Fill the container ¼ full with water and recap. Shake for 10 seconds. Follow Pesticide Disposal instructions for rinsate disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.
