TANFORM

Carpet Stain Remover

Description: Tanform is a blend of penetrants and mild organic acid designed to safely remove tannin stains and brown-out from carpet and fabric. It may be used to remove stains caused by coffee, tea, wine, and many other types of beverages, urine, and plants. Tanform will also remove brown-out caused by high alkalinity and may be used to maintain the jets in extractor machines.

- Benefits:**
- Mild acid
 - Works on carpet and fabric
 - Extends life of extractor machine

Specifications:

Appearance:	Clear liquid
Color:	None
Odor:	None
Use Dilution:	R-T-U for spotting; 1:16 parts water for eliminating brown-out; 1:32 parts for rinsing extractor jets.
Storage Stability:	Two year minimum in sealed container.
Protective Clothing:	See Safety Data Sheet (SDS)
Product Conformance:	Manufactured by an ISO 9001:2008 registered company.

Comments: It is recommended to use Tanform, when cleaning extractor jets, at least once per month.

Directions:

Tannin Spots: Apply TANFORM directly to the stained area. Allow TANFORM to work for 10-20 minutes or until the stain disappears, slightly agitate with a soft brush or spatula. Rinse area thoroughly with clear water. TANFORM can be used as a pre-spotter prior to washing garments or shampooing carpet and upholstery.

Brown-Out: Add 8 oz. of TANFORM to an 8 gallon extractor tank filled with fresh water. Extract area until brown-out is no longer visible. Extract once more with clean fresh water or solution of TRIAD.

Machine Cleaning: In order to clean the jets on an extractor, mix 4 oz. of TANFORM with two gallons of water and run the solution through the machine. This procedure should be followed at least once per month.

Product Disposal: This product is hazardous material. Dispose of in accordance with local, state, and federal regulations. It is recommended that the high density polyethylene container and any corrugated packaging be recycled.
